[redacted] stand (cat. # 31-26-95, without base), 360° rotatable arm (cat. # 31-26-90) and Zoom power pod (cat. # 53-70-02, Model 2), Aeronautical Photographic Experimental Laboratory film reel brackets and [redacted] segmented nylon rollers. 25X1

25X1

b. Provide a slide between the table and the [redacted] stand to allow the microscope to be quickly positioned over the viewing area of the light box. 25X1

c. Provide a transverse feed screw and slide to move the light box in relation to the microscope a minimum of 1½" each side of the table centerline.

d. Provide a rotational movement of the whole light table on its base and tilting mechanism a minimum of 90° in each direction from the nominal position.

e. Provide a tilting mechanism with integral braking safety device to allow tilting of light table and microscope through a minimum range of 0° to 45° of inclination toward operator.

f. Provide a light table with at least 9½" on a side of lighted surface but no more than 11½" on a side. The viewing surface of the table is to be glass with an opalescent plastic diffuser immediately beneath the glass surface.

g. The design goal for table lighting should be sufficient to view transparencies with 2.0 density comfortably through a standard Zoom microscope pod at 30X magnification. Switches or voltage regulation devices are to be provided for at least 4 levels of illumination over the entire viewing surface and at least 2 levels in each of the four quadrants of the viewing surface.

h. Provide mounting arrangements and necessary hardware to mount government furnished accessory equipment, listed in paragraph a. on the light table at the customer's facility.

i. Height of the table and over-all dimensions of the base are to be held to a minimum commensurate with good engineering design and proper balance in all possible positions expected in an operational environment.

Government Furnished Equipment:

The Government shall furnish the Contractor for use in performance of this Contract the following Government Furnished Equipment:

One set of AFPL brackets and two sets of [redacted] nylon rollers for fitting on the Zoom [redacted] stereoscope models. Additional sets of AFPL brackets and nylon rollers and [redacted] nylon rollers for installation on the light tables under Item 1 above. [redacted] stands and zoom power pods will be furnished the Contractor in the performance of this Contract. 25X1

25X1

Delivery Schedule:

Units under Item 1 above shall be delivered as follows:

[redacted] for examination by 1 September 1962 followed by an additional instrument each week thereafter. The entire Contract shall be completed on or before 15 October 1962.

Inspection and Acceptance:

Inspection during the course of the work hereunder will be made by technical representatives of the Contracting Officer. Final inspection and acceptance shall be made at consignee destination.
